By utilizing the best real time GPS tracking technology, we are able to safeguard our customers` needs with the highest level of direct and personal service.

In Short, **Simple. Innovative. Affordable.**

Fleet management

By investing in the Fleetrak Fleet Management Solution, rapid return on investment is assured.

Features

1. **Real time Fleet tracking / Live tracking**

- View vehicles in real time with no delay
- Use various mapping options – road maps and satellite imagery
- Know where your vehicles are 24/7

2. Instant Alerts

- Instant alarm signals are sent to your phone (SMS) or email... e.g. -harsh braking, Ignition ON/OFF, Speeding and Power failures

3. Specialised Software

- Our software collects real time data for facilitating reporting, while managing and maintaining agreed workflows

4. Regular, detailed reports

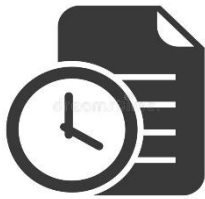

- Simple, daily or weekly reports, help you to identify driver or fleet related issues, so you can implement reparative processes
- Can also view and download reports on mobile app

5. Interface

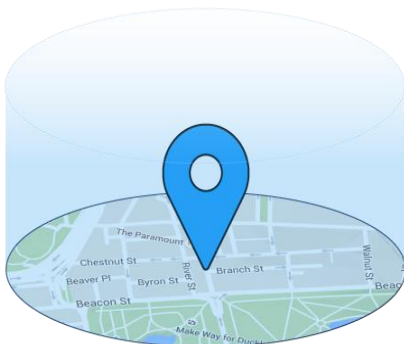

- A modern fully featured web interface and mobile apps for Android and IOS platforms

6. History

- History is stored for up to 6 months projected on map, providing visual representation

7. Geo Fencing

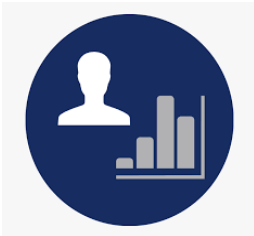

- Customize a location to receive alerts (SMS or email) when vehicle leaves or enters location, job-site or route

8. Incident Management

- Exception based events are monitored for theft, hijacking etc.
- A detailed report is created in the event of an accident

9. Driver points

- Manage inefficient and unsafe driver behaviour
- Points are awarded to drivers after each trip, so as to reward and encourage good driver behaviour and performance.

Optional Features: *Customers select what they consider to be high-risk or non-compliant events in their fleet*

- Excessive driving hours (no rest break)
- Driving after hours
- Impact detection (possible accident)
- Excessive Idling
- Power disconnection

What can you track?

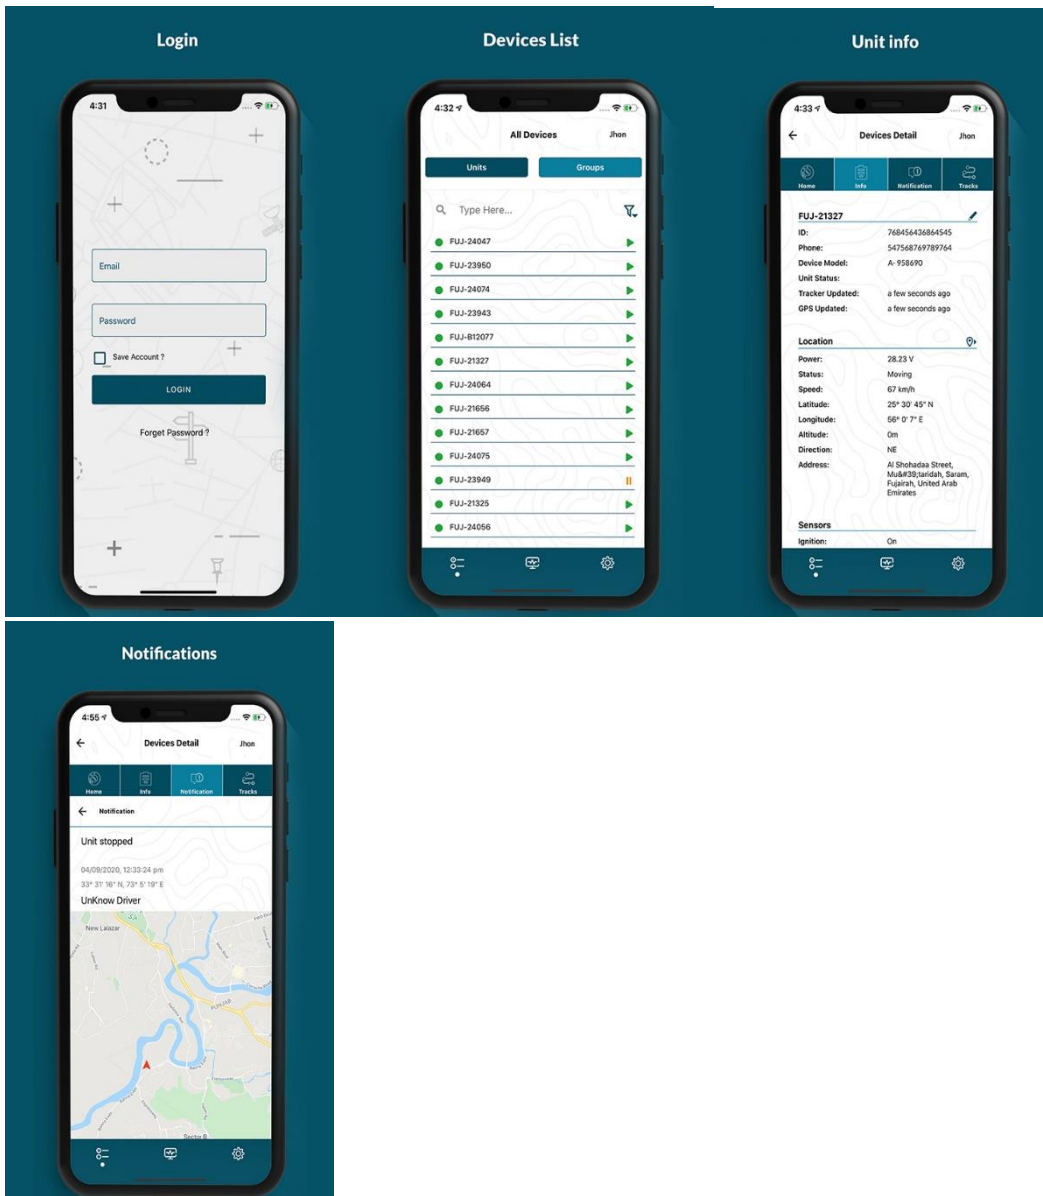

Benefits Of Fleeertrak tracking
